

San Diego, December 20, 2008

Dear Dr. Reeder,

My name is Troy Lawrence and I am 11 years old. I wanted to tell you, now that I use CRT, I am really excited that I don't have to wear my glasses anymore. The first morning after I had finished the treatment that night, I was so exhilarated when I could easily see the oven clock from thirty feet away from my family room. Also, I could see the mountains so much clearer than with my glasses. I have really gotten use to the feeling of the contacts on at night. Thank you for giving me the best Christmas present this year.

Your patient,
Troy Lawrence
