

CARMEL MOUNTAIN  
VISION CARE

## CRT REPLACEMENT AGREEMENT

We recommend that you **always** have a spare set of CRT lenses. Treatment may be compromised by discontinued wear due to lost or damaged CRT lenses. For this reason, all of our CRT patients receive a spare pair of Paragon CRT lenses during their prescribing treatment. However, if you lose or damage a CRT lens during or after the prescribing process, **YOU are responsible for the replacement cost of each lens.** Paragon CRT lenses should also be replaced annually to ensure good eye health and effective treatment.

	Lens Replacement Fees
Standard Lens	\$170 each
Premium Lens	\$200 each

### Discontinuation of CRT Agreement

If circumstances prevent you from continuing your CRT treatment during the first three (3) months of care, Carmel Mountain Vision Care will gladly refund all fees paid less \$500.00.

I have read and understand the terms of this agreement.
